Rodie

## Real People Share Real Experiences

It has always been Dr. Harvey's mission to help animals find and maintain good health by using only real foods and our natural products. Nothing is more rewarding than hearing from guardians who want to share their companion's journey of recovery. They want to share their stories not only to say thank you, but also to help other pet parents find a way to help their companions. Many feel they have experienced a miracle.

It is our hope that this little book will offer helpful information to those pet parents who need it. These are only a few of the many, many stories that we have received.

These letters describe the helplessness that pet parents can feel when they have lost hope of finding an answer for their beloved friends. That hopeless feeling quickly turns into delight, as they see their companion's health improve. Knowledge is powerful and as you will see from these letters, sometimes just a small change in diet can yield dramatic results.

We are happy to share a few of these wonderful stories with you.

*"Health begins in the kitchen."* Dr. Harvey

If you have any questions regarding a specific health challenge facing your dog, or just want to say "Hi" – we'd love to hear from you!

# This Food Has Changed Our Lives - I Love Your Products

Name **Brodie**

Health Issue **Chronic Diarrhea**

“ I’m not the sort of person to send off letters to companies full of praise, but I felt I had to write to you. ”

I have only recently heard of your company. I actually first tried your Healing Cream on one of my Westie's hot spots. Not only did this cream seem to comfort her, but it actually worked....**almost immediately, the inflamed pink skin had settled down.**

“ I love that I can see the veggies! It only takes 8 minutes to provide her with a warm and healthy meal. ”

This led me to your products and a solution for my 15 year-old Westie, Brodie. She had been diagnosed with chronic colitis. We were advised to give her a bland diet and sprinkle unflavored Metamucil on her food.

Well, my common sense should have kicked in at that point, but I went along with what he said. In the process, Brodie became sicker and sicker with constant diarrhea. She dropped from her normal 15 pounds to 11, and I became very concerned.

“ Finally an Answer-Back to Her Normal Self and No Drugs! ”

I ordered a bag of your Canine Health. **What a huge difference this has made! She is now thriving, gaining back some weight, no more diarrhea or stomach pains.** I love that I can see the veggies in the mix and that it only takes 8 minutes to provide her with a warm and healthy meal. She is back to her old self, and off the Metronidazole completely. Thanks again, and I will continue to use your products and recommend them to others.

# No Other Food Worked

Name **Abbie**

Health Issue **Kidney**

“ She refused to eat it anything. We thought we would lose her. Then we found Dr. Harvey’s Veg-to-Bowl. ”

This year we found our girl Abbie had contracted leptospirosis & she went into **acute kidney failure**.

“ The standard commercial kidney diet that the vets recommended was not working. She refused to eat it. ”

She spent 3 days in the hospital hooked up to IV’s. When it was time to take her home we almost burst into tears when we saw her. The poor thing came out looking like a shell of a dog. She’s a daddy’s girl & she didn’t even know who I was. I had to hydrate her everyday for close to 3 months. The standard commercial kidney diet that the vets recommended was not working. She refused to eat it. We thought we would lose her. Then we found Dr. Harvey’s Veg to Bowl. **Today she is running around like a 2-year old!**

“ My little girl is almost 8 years old. Since she has been on Veg to Bowl she has the energy of a 2 year old. I have also noticed her coat is getting thicker. ”

**Your team has developed a phenomenal product with such a brilliant over all nutritional concept.** My little girl is almost 8 years old. Since she has been on Veg to Bowl she has the energy of a 2 year old. I have also noticed her coat is getting thicker. **Thank you for producing such a first class product!** I recommend your product to anyone who will listen & some have.....

# Thank you! I Can't Believe it!

Name **Lucy**

Health Issue **Digestion, Picky Eater**

“ I was as skeptical as it gets about making the switch to your food. I was worried about the expense, the time, the commitment of making her dinner every night... but now I’m never looking back. ”

I have a 5-year-old Shih Tzu, Lucy, who has always been a picky eater. Not only that, **she’s had stomach issues all her life – everything I’ve fed her has given her vomiting fits and diarrhea.** I found a bland kibble that she seemed to like, but never really ate all of it and would occasionally vomit, though the diarrhea subsided. She slept a lot, and it was obvious when she wasn’t feeling well.

“ My picky Lucy, who hated just about everything I fed her, literally ate **AROUND** the kibble to get to the Dr. Harvey’s mix. ”

I met a woman named Barbara. We got to talking about our dogs, and I complimented her on how happy her dog seemed to be. **She said, “it’s the food.”** She continued, “most dog foods are chock-full of chemicals and preservatives, and these things can negatively impact the health of any dog”. **\*She recommended Dr Harvey’s food, saying that it’s the best thing she’s ever done for her dog.** I went home and stalked your website, watching the videos and reading the testimonials, I caved and bought a small bag of Veg-to-Bowl, just in case Lucy didn’t like it.

“ It’s all in the food. I’m telling everyone I know about how awesome Dr. Harvey’s food is – my Lucy is living proof. ”

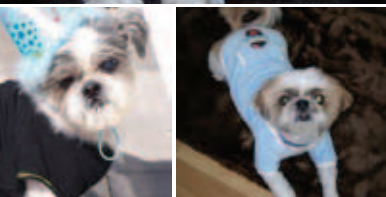

Now I believe what Barbara had told me – **it’s all in the food.** I’m telling everyone I know about how awesome Dr. Harvey’s is – my Lucy is living proof. Also thank you for making it **really simple to make the food.** It’s ridiculously simple.

# To Me It Is A Real Miracle

Name **Mojito**

Health Issue **Digestion, Allergies**

I have three dogs with three different health issues. I was in search of a quality product that I could feed my dogs that they would like and I would like to buy. I had tried everything even home cooking. Then one day I found a bag of Dr. Harvey's Canine Health-The Miracle Dog Food and it changed my life as well as my dogs' lives.

“ As far as the customer service at Dr. Harvey's, there is none better on the planet. ”

**Once you use this food, even if it is just for a week you will see results.** I use the food, treats and the supplements. As far as the Healing Cream you can use it anywhere on the dog, I have used it on myself too. **I just don't have enough words for how all of these products changed all of my dogs' lives for the better.**

My 13 year-old Shih Tzu Mai-Tai was having digestive and constipation issues. My 4 year old Shih Tzu, Midori, was having all sorts of allergy issues with severe fistulas on her anus. We saw a dermatologist, who suggested medicine for life so the problem wouldn't reoccur. My 4 year-old Shih Tzu, Mojito, was sick since I got him as a young pup. He had all sorts of digestive and bowel issues.

“ I was desperate to find something that would help. That is when I tried the Dr. Harvey's Canine Health Miracle Food. Believe me when I tell you it is a true miracle! ”

“ Remember, all of my dogs had different issues...to me it is a real miracle! All the issues were resolved because of this incredible food. Thank you so very much. ”

- I changed all of them to Dr. Harvey's Canine Health-The Miracle Dog Food and all 3 got better!\* Amazing!

# He Has Never Had Diarrhea Again

Name **Koda**

Health Issue **Chronic Diarrhea**

“ I did find some natural dry foods that he would eat for a while, but he always had diarrhea at least 4 days out of the week no matter what. ”

I wanted to tell you a great story about my dog who loves your food. Koda was 18 months old when we rescued him. At 18 months he was 6 feet on his hind legs and weighed under 100 pounds.

“ He was so malnourished that everything went through him almost instantly and came out like water. ”

He was so malnourished that everything went through him almost instantly and came out like water.

I started the long journey of finding food that was good for him, but also that he would eat! I did find some natural dry foods that he would eat for a while, but he always had diarrhea at least 4 days out of the week no matter what.

And Then... one day I found Dr. Harvey's online and read the testimonials. The other people's stories sounded like so many of Koda's problems! **Now he has been on the food for many months and has never had diarrhea again. And he begs to have his food every day.**

“ Then one day I found Dr. Harvey's online. He never had diarrhea again and begs to have his food everyday. We absolutely love Dr. Harvey's! ”

There are two of Koda's walkmates that are small dogs and they were having similar problems to Koda's. So I shared some of his food with them and they are wonderfully happy dog parents and dogs also! **Thank you for creating the food that works and they all like.**

# Fifi Was A Very Sick Dog

Name **Fifi**

Health Issue **Heart, Kidney, Ear Infections**

“ Fifi had kidney disease and was spilling large amounts of protein in her urine. She also had high blood pressure, a thyroid condition, an enlarged heart and an ear infection. ”

When I first got my little Fifi 6 months ago (she is a 4.5 lb Pomeranian) she was in bad shape. Fifi is a retired show dog who I got from a breeder. My heart sank when the vet told me **Fifi had kidney disease and was spilling large amounts of protein in her urine. She also had high blood pressure, a thyroid condition, an enlarged heart and an ear infection.** My heart sank when she said, “This is serious. Fifi is a very, very sick dog. If you don't want to spend thousands of dollars on her treatments then you might as well just return her to the breeder.” I didn't want to give up on Fifi.

“ My heart sank when the vet said, “This is serious. Fifi is a very, very sick dog”. ”

Since we have been giving her the **Dr. Harvey's food, Fifi has improved tremendously!** All of her kidney lab test results are within healthy range, her blood pressure is normal, and her chest x-rays show no sign of an enlarged heart. Additionally, she has never had another ear infection. **Dr. Harvey's diet IS her primary medicine.** I am completely impressed by the company. Unfortunately, my vet did not agree with me feeding Fifi Dr. Harvey's diet and wanted me to give her the special canned kidney dog food.

“ Dr. Harvey's diet IS her primary medicine. ”

After all her lab results came back normal, however, my vet could no longer; the proof was in the test results. I am blown away by this company. I can't thank Dr. Harvey and the entire company enough! **I will feed this food to my dog for the rest of her life.**

# We Tried Many Different Foods - Nothing Worked Until This

Name **Corky**

Health Issue **Allergies, Ear Infections**

“ We decided to give Veg-to-Bowl a try. It was like an instant transformation. He is no longer itchy, at the perfect weight and no longer has an upset stomach! ”

I normally do not think to send thank you feed back on products that I am pleased with, but I really had to email you to thank you for creating Veg-to-Bowl.

“ I normally do not think to send thank you feed back on products that I am pleased with, but I really had to email you to thank you for creating Veg-to-Bowl. ”

When we rescued our Pug, Corky in December he was overweight and completely shaved. The MSPCA assumed that his former owners thought he had fleas. After many upset stomachs and a ton of itchiness and ear infections, we found a veterinarian who figured out that Corky had allergies. \*We tried many different foods and nothing worked.

“ So thank you for making such a great product! Thank You For Veg-to-Bowl ”

After consulting with our amazing local pet store, we decided to give Veg-to-Bowl a try. **It was like an instant transformation.** He is no longer itchy, at the perfect weight and no longer has an upset stomach! His coat looks and feels amazing.

So thank you for making such a great product and thank you for making Corky even happier than he was when we rescued him or as I like to say, when he rescued us!

# We Believed We Were Feeding the Best...

Name **Dixon**

Health Issue **Body Odor, Weight loss**

“After only one month on Dr. Harvey's food, our boy appeared incredibly happy and healthy. He had slimmed to his perfect size and shape, his coat was glowing and soft and he wasn't stinky like he used to be!”

I've been meaning to write you for a while. We started feeding our Boston Terrier, Dixon (right), Dr. Harvey's Canine Health after his littermate, Mason (left), suddenly died of a very aggressive cancer.

“I've learned that dog “junk food” is the cause of so many health issues that we have been led to believe are just normal with our animals as they age.”

While we believed we were giving them the best, we came to find out that the food we had been feeding them was terrible for them. I've learned that dog “junk food” is the cause of so many issues we think are just normal with our animals as they age.

“I highly recommend this food. It's easy to prepare, my dog LOVES it and his apparent health and happiness makes it more than worth it.”

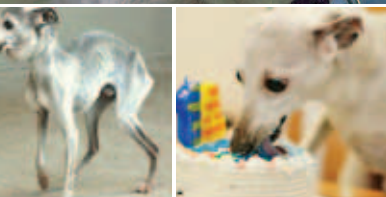

After one month on Dr. Harvey's food, our boy appeared incredibly happy and healthy. **He had slimmed to his perfect size and shape, his coat was glowing and soft and he wasn't stinky like he used to be!** Who knew it was the food making him stinky!?! He doesn't need baths as frequently.

It's easy to prepare, my dog LOVES it and his apparent health and happiness makes it more than worth it. Thank you!

# Dr. Harvey's Saved My Booker

Name **Booker**

Health Issue **Salivary Gland Tumor**

“ Dr. Harvey's food actually saved this old dog's life! ”

Dr. Harvey's food actually saved this old dog's life! Even his toenails are bright white once again! You have to see his entire story to get the gist of what this poor dog went through. He loves Dr. Harvey's food! I have photos here of him before and after your food!

“ It is hard for him to get food into his mouth since his bottom jaw does not work! ”

The former owner was not making sure he ate his meals! It is hard for him to get food into his mouth since his bottom jaw does not work! Because of this, his mouth doesn't close and his tongue hangs out. Booker's teeth rotted horribly and painfully. At one point, the vets said that the stench was unreal. His head swelled from infection until the teeth all fell out. He was made to stay in that condition for years until his salivary gland tumor was removed. After this, his life was saved.

“ It has been 6 months since we rescued him, he has gotten SO much better. He is a miracle dog! ”

He was rescued only a day before death at the shelter. It has been 6 months since we rescued him and he has gotten SO much better. **He is a miracle dog!** I use the **Ortho-Flex Supplement** and Booker does not limp anymore on his old crooked legs! I have videos of this little old guy running and playing! Booker was so abused the first 10 years of his life, it is unbelievable! We love him so much. He is such a sweet boy. Thank you Dr. Harvey!

# Canine Health Cures Bernie!

Name **Bernie**

Health Issue **Constant diarrhea**

“Bernie immediately improved after discontinuing the commercial dry kibble products.”

After 11 months of pure hell and concern dealing with almost daily soft stools with mucous and intermittent diarrhea, Bernie (my 14 month old Bernese Mountain Dog) immediately improved after discontinuing the commercial dry kibble products. I now prepare the protein source with Dr. Harvey's Miracle Canine Health Food.

“For the first time since she was 3 months old, Bernie barks to be fed, gobbles up and had normal formed stools from the 1st day following the food change.”

For the first time since she was 3 months old, Bernie barks to be fed, gobbles up her food instead of walking away from it, has **normal formed stools** since the 1st day following the food change, and displays much more energy. Everyone at work has noted the difference in her and actually think that she has grown a little more. All this in the past 10-days since starting this new “home-cooked” human-grade product.

“I thank Dr. Harvey for his knowledge of nutrition and common sense.”

**She will not be served commercial kibble ever again.** I thank Dr. Harvey for his knowledge of nutrition and common sense. Trust me, I have little free time and this is not hard to prepare. In the long run, Bernie is healthy and growing stronger. Anything this good deserves to have kudos! I only hope it will convince someone sitting on the fence to give it a try.

# I Didn't Want to Lose Him!

Name **Elvis**

Health Issue **Kidney problems**

“ He was diagnosed with renal disease as a puppy and had been on 3 different types of prescription dog food. ”

I just wanted to say thank you so much for all your help with getting a diet put together for my Yorkie, Elvis. **He was diagnosed with renal disease as a puppy and had been on 3 different types of prescription dog food.** About 2 months ago he was hospitalized because his condition had got worse.

“ I started researching this disease as well as different types of dog food. I found your website and decided to order your Miracle Dog Food. I could not be happier with the results. ”

I didn't understand why the food wasn't working. He started vomiting daily, lost 3lbs (which is a lot when he only weighed 7lbs) and was very depressed. He was in the hospital for over a week. I was so worried! I didn't want to lose him. I started researching this disease as well as different types of dog food. I found your website and decided to order your Miracle Dog Food.

“ Most important his blood work came back perfect! I have seen such a dramatic change in him. Thank you soooo much!!! ”

He's been on it since he came home. I couldn't be happier with the results I have seen. He's put weight back on, he acts like a puppy again, his coat is shiny and beautiful and most important his blood work came back perfect! And he loves it!! I **have seen such a dramatic change in him.** Thank you soooo much!!!

# Candy Is Our Miracle Dog – Thanks to Dr. Harvey's

Name **Candy**

Health Issue **IMHA-Hemolytic anemia**

“ We almost lost Candy a year ago and thanks to all of your fantastic foods, recommendations, caring, and true love of animals, Candy just celebrated her 7th birthday! ”

I just want to update you about Candy! She is doing great after her deadly diagnosis of IMHA-immune-mediated hemolytic anemia and her blood transfusions. **We almost lost Candy a year ago and thanks to all of your fantastic foods, recommendations, caring, and true love of animals, Candy just celebrated her 7th birthday!**

“ My family and I can never thank you enough for taking time out of your busy schedule to always take my phone calls. ”

My family and I can never thank you enough for taking time out of your busy schedule to always take my phone calls when Candy's red blood cell count was as low as six. It was recommended we put her to sleep. You explained we were simply buying time for her system to get rid of whatever she got hold of and you were so right!!!

“ Candy, our Dachshund, is the true Living Proof Miracle Dog! ”

I just want to let the World of Pet lovers know that Dr. Harvey, who came highly recommended to me by my brother, Kevin, is a true miracle worker! **Candy, our Dachshund, is the true Living Proof Miracle Dog.** She is back to living a normal, fun-filled, healthy life thanks to the one and only Dr. Harvey who never gave up on Candy!!!

# Tycho Made A Believer Out of Our Veterinarian

Name **Tycho**

Health Issue **None**

“ We’ve made a believer out of our vet, and we want you and everybody to know how amazed we and others are about the health, vitality, and beauty of our excellent Labrador as he ages. ”

Our Yellow Labrador, Tycho McCoy, is now 9-1/2 years old, and has been loving Dr. Harvey's Canine Health Formula since he was 3. He is in excellent health, with a body and vitality that amazes all who meet him.

“ Tycho’s veterinarian was skeptical at first, particularly about our, feeding raw meat, but now he is amazed every time we visit, which is only for checkups. ”

Tycho’s veterinarian was skeptical at first, particularly about our feeding him raw meats, and especially raw chicken with bones, but now he is amazed every time we visit, which is only for checkups and vaccinations. He’s proclaimed Tycho to be the healthiest dog in his practice, and tells others all about him when they ask about holistic diets for their pets.

“ Our vet proclaimed Tycho to be the healthiest dog in his practice, and tells others all about him when they ask about holistic diets for their pets. ”

**We’ve made a believer out of our vet**, and we want you and everybody to know how amazed we and others are about the health, vitality, and beauty of our excellent Labrador as he ages. We hope and expect to keep him healthy with Dr. Harvey’s products for years to come. Thank you!
